### Grocery Retailing - US

"After two years, COVID-19 continues to have an impact on the grocery sector. The combined pressures of supply shortages and inflation drive up prices, prompting consumers to prioritize value. Pandemic behaviors give way to new norms, as omnichannel shopping becomes commonplace. Additionally, the strides made in technology enable grocers to ...

### Snacking Motivations and Attitudes - US

"Most Americans snack multiple times a day, and snacking frequency is likely to continue to tick up, driven by young consumers who view snacking as playing a more central role in their dietary lives. There is ample opportunity for healthier, more nutrient-dense snacks and for non-snack foods to be recast ...

### Feeding the Family - US

"Feeding the family is largely about meeting the needs of parents. Effective brands will need to concentrate more on being healthy and convenient solutions for time-strapped parents and less on being indulgent treats for kids."

### Dips and Savory Spreads - US

"The time is ripe for brands to inspire and extend use occasions and frequency. Snacking and social occasions should continue to be nurtured yet updated to meet changing mealtime dynamics. The distinction between meals and snacks is eroding creating opportunities for healthy, nutrient-dense snacks that can take the place of ...

### Potato and Tortilla Chips - US

"Consumption of potato and tortilla chips is nearly universal, and the category saw an 8% increase in 2020.

### Fish and Shellfish - US

"The intimidation factor is a strong deterrent that is hampering more diverse participation in the fish and shellfish category and, despite some cooking burnout, it's time to address the issue. Rising food prices coupled with unprecedented labor issues are forcing foodservice operators to scramble to recover from the fallout of ...

### In-store Bakery - US

"The in-store bakery pulled itself up from the loss faced during early pandemic months to post a record year of sales growth in 2021. In the context of prolonged elevated reliance on retailers and at-home food, a spotlight is shining on all grocery categories that can help consumers break the ...

### Snack, Nutrition and Performance Bars - US

"Following loss brought on by steep pandemic-driven decline in away-from-home and on-the-go eating, with the help of evolved strategies for boosting at-home usage, the bars category has begun an uphill climb. Total recovery and future success are reliant on the ability for bar brands to meet next-normal needs, not just ...

### Salty Snacks - US

"Snacking has remained strong in 2021. In pursuit of craveable, hunger-satiating treats, some turn to familiar

## Food - USA

The next year will see sales correct and, by 2023, resume their pre-pandemic pace of slow but steady growth, fueled by interest in on-the-go snacking options and chips that can offer flavors ...

tastes, while others, especially younger consumers, embrace innovation and spicy, international flavors. Interest in BFY options as well as more environmentally friendly products is driving innovation among fast-growing alternative salty snacks. While the pandemic ...

## January 2022

### Foodservice in Retail - US

“Foodservice in retail suffered in the early stages of the pandemic, but the forces that made foodservice a priority for grocery retailers before the pandemic are as strong as ever. Retailers compete against an ever-widening array of convenient meal options and must meet shoppers’ elevated expectations for variety, quality and ...

### Consumers and the Economic Outlook - US

“Despite yet another COVID-19 variant, the US economy ended 2021 in good shape, with rising consumer confidence and unemployment rates that fell to a pandemic-era low. Alongside the strong economic gains, consumers’ financial situations also continued to improve, with most remaining optimistic about their finances going into 2022. As the ...
