

July 2023

Conferencing and Events - UK

“While there is increased demand for face to face events and conferences, the sector continues to grapple with a number of challenges. High costs, short lead times and staffing challenges remain high on the agenda. Client expectations are also growing, with audience expectations becoming far more experience-led.

A focus ...

June 2023

B2B Economic Outlook - UK

“While the UK economy is now expected to narrowly avoid falling into recession in 2023, stubbornly high inflation remains of concern. The inflation rate is expected to slow in the second half of 2023, on the back of falling energy prices and the easing of global supply pressures, but it ...

Legal Services - UK

“Legal services providers continue to face increased competitive pressures, driven by new entrants, alternative providers, smart technologies, new business models, changing client buying patterns and new ways of working.

Corporate clients will continue to squeeze margins while pushing for better efficiency and the greater use of innovation. Thus, firms are ...

March 2023

Recruitment - UK

“The UK recruitment market has been heavily propelled by the larger trend of the ‘great resignation’. However, this trend is expected to have a reduced impact over 2023 as increased economic volatility is hardening labour movement intentions and leading to increased business reticence towards hiring. Meanwhile, shortages of talent are ...

B2B Economic Outlook - UK

“Although the UK avoided recession at the end of 2022, growth is likely to be constrained by persistently high inflation and the cost of living crisis. The recent fall in wholesale gas prices should start to reduce bills by the end of H1 and this will somewhat improve the financial ...

February 2023

B2B Economic Outlook - UK

“The UK, along with other Western economies, is grappling with a perfect storm caused by rocketing fuel prices following the conflict in Ukraine and the inflationary consequences of the post-COVID boom in demand. The sharp rise in inflation seen in 2022 has stimulated interest rate rises which in turn contribute ...

January 2023

Fleet Services - UK

"The shortage of semi-conductor computer chips is continuing to lead to shortages of new manufactured vehicles, which is creating delays in new orders. Despite this, the industry has found innovative solutions to maximise growth through increased investment in digital business models, telematics technology and electric vehicles."
