Consumers and the Economic Outlook: Quarterly Update - UK

“The generally positive outlook of the economic climate, and the benefits that are gradually being witnessed at the individual level, means that the people of Britain are finally regaining their confidence. For the first time since the economic downturn, Mintel’s data shows that more people feel better off compared to ...

Credit Cards - UK

“Credit card issuers who are considering scaling back their customer rewards in order to offset a reduction in interchange fee income should heed the warning of Mintel’s research. Around one in five credit and charge card holders would either use their card less or stop using it altogether if their ...

Current Accounts - UK

“The current account market has always been labelled as being notoriously ‘sticky’. The launch of the CASS had as a primary goal the removing the barriers to switching and boosting competition. Even though the market has heated up with deals to lure switchers, activity remains split somewhat equally among switchers ...
