Suncare - UK

"The UK suncare market is going through a challenging period. Not only is the market highly vulnerable to the UK weather, but sales are also influenced by outbound travel as there is still a perception that suncare is only needed on holiday. However, consumers are slowly taking suncare more seriously ...

Laundry Detergents, Fabric Conditioners and Fabric Care - UK

"Greener lifestyles, concerns regarding health impact of laundry formulations and growing presence of skin diseases and allergies are all leading consumers to rethink laundry habits and the products they buy. However, there are still opportunities to prosper, particularly through offering convenient and innovative solutions that allow them do the laundry ...

Household Surface Cleaners - US

"The household surface cleaning category needs an infusion of step-changing innovation to overcome its communized status and drive growth. In the short term, changes enabling more convenient and sustainable online shopping, natural ingredients and even probiotic cleaners that achieve bacterial balance in the home will begin nudging the category in ...

Men's Attitudes towards Haircare and Skincare - UK

"Although men are engaged in their beauty and grooming routines and show high purchase of hair and skincare products, brands and retailers are still not capitalising on male interest in these categories. Despite high interest in male brands, mass-market retailers continue to have limited availability of male-specific lines. Men turn ...

Home Laundry Products - US

"In 2019, home laundry products are estimated to increase. While the market enjoys strong penetration – as nearly all consumers purchase laundry products – industry players are challenged to generate meaningful sales growth due to shoppers' habitual approach to the category. Mintel projects continued modest growth of laundry products from ...

Air Care - UK

"The air care market is facing a paradigm shift away from being a functional category, and towards one more closely aligned with the wellbeing sector. Supporting consumers by being more transparent about products and innovating to cater to emotional desires will help brands achieve a superior consumer connect and stand ...

Marketing to Moms - US

"Moms are responsible for most household and childcare duties, meaning that they are the key decision makers when it comes to what their families eat, wear, and watch. However, this also means moms are being pulled in a million different directions and may not have the time or the inclination ...

Vitamins and Minerals - US

"The vitamins and minerals market remains steady, with the majority of adults currently taking at least one vitamin or mineral. While younger consumers are driving demand for innovation and personalization, traditional formats and formulations continue to be important to overall market strength. However, a demand for natural, specifically whole food ...

Approach to Health Management - US

"Consumer spending on health-related services and products increased significantly from 2013-18, and a slowdown is nowhere in sight. Health management is universal, with many people placing significant pressure on medical professionals to guide their health and wellbeing through product recommendations and

Vitamins and Supplements - UK

"The strong focus on diet for health benefits and the growing availability of fortified and functional food and drink present major challenges for the VMS market, making it even more important for products to create compelling standout. Organic products, fun formats with exciting flavours and vitamins/supplements tailored to individual ...

Managing Skin Conditions and Allergies - UK

"Own-label, one-a-day allergy relief tablets look to have been a victim of their own success – driving down spend and purchase frequency. Indications are that allergies are rising, but the forecast for allergy relief remains bleak unless interest can be invigorated with alternative formats or enhanced product positioning. When it ...

Shopping for Household Care Products - UK

"Shopping for household care products is largely planned in advance, and is done alongside groceries, rather than in its own right. The way that consumers shop lacks imagination and the market suffers as a result. Brands and retailers need to try to encourage more of an attitude that shopping for ...

Men's Personal Care - US

"The men's personal care market, currently valued at more than \$4.4 billion in annual sales, has been growing steadily since 2014. This growth is largely driven by men's interest in personal hygiene essentials such as shampoos and deodorants. As traditional gender norms continue to shift, promoting themes of beauty ...

Sexual Health - UK

"Messages around the importance of safe sex have quietened in recent years, in tandem with reduced outlay on promoting condoms, resulting in value sales of condoms – the largest segment – continuing to slide – and pulling down overall category value as a result. Society has become more open about ...

The Green Household Care Consumer - UK

“The current direction of travel indicates a promising future for eco-friendly household care. However, there is still more that can be done to make it truly mainstream. There remains confusion over what brands mean by ‘eco-friendly’, suggesting that brands in this space can do more to educate and inform people ...

Dishwashing Products - UK

“The public focus on the environment makes it imperative for companies to advise consumers on how they can save water and energy when dishwashing, and consequently save on household bills. This can also be used to expand dishwasher ownership, which is key to growing the market as a whole.”

Dishwashing Products - US

“Maintaining sales of \$3.1 billion in 2018, the maturity of the dishwashing products market is evident in its unchanging sales since 2013. Strong habitual shopping behavior among category users, with little motivation to change, provides the impetus for a static market. This creates a challenging landscape for newcomers and ...

Generational shifts and societal changes are altering how consumers are approaching caring for the ...

Toilet and Hard Surface Care - UK

"Consumers are showing an increasing interest in eco-friendly cleaning, and brands are responding to that in their product ranges. However, there is still room for development in this area, particularly as eco-friendly packaging looks set to become a condition of purchase rather than simply a demand. Brands introducing a premium ...

April 2019

Disposable Baby Products - US

"The disposable baby products market is estimated to reach \$8 billion in total 2019 retail sales, a decline of nearly 1% from 2018. Market struggles can partially be attributed to declining birth rates, parents' value-driven approach to the category, as well as increased competition from online retailers and subscription services ...

Hand, Body and Footcare - UK

"The growth of the market to £557 million in 2018 has been driven by bodycare as consumers don't understand the need for hand and foot products. Innovation trends create a focus on all-purpose products, meaning brands must develop personality to differentiate. Links to wellness could work for footcare; feeding the ...

Household Paper Products - US

"While household paper brands have introduced meaningful innovation over the past year, consumers see the category as an opportunity to reduce the cost of living. They increasingly believe that store brands are as good as name brands and that in most cases, premium innovations are not worth the extra cost ...

Shampoo, Conditioner and Hairstyling Products - US

"The shampoo, conditioner, and hairstyling products market continues to experience slow, yet steady growth, benefiting from strong shampoo and conditioner sales. However, damage concerns have some consumers skipping daily washing in lieu of dry shampoo. Given that conditioner and hairstyling product usage is reliant on frequency of shampooing, less washing ...

Women's Haircare - UK

"Following a slight rise in value in 2016 and 2017, women's haircare is in decline again as discounting and special offers impact buying behaviours, whilst the desire for more natural styles and focus on hair condition continues to negatively impact the styling segment. A reduction in recorded advertising spend suggests ...

Food Storage and Trash Bags - US

"Food storage and trash bag usage has near total household penetration, reflecting the functional nature of the category. While a strong, steady consumer base provides a solid foundation, significant growth remains elusive as users exhibit cost-conscious shopping behavior. Marketers must work to emphasize the value of premium features and encourage ...
