#### European Retail Handbook - Europe

This is the 11th edition of the European Retail Handbook. Like its predecessors, it has been designed as an affordable, practical and manageable reference work unparalleled in the breadth, depth and quality of its coverage. This year, we have once again covered 30 European countries, including the emerging markets of ...

#### European Retail Space Forecasts to 2012 - Europe

This report provides a model of retail space in the five major economies in Europe, highlighting local differences in the way retailing is structured and providing pointers for the way that retail space will develop.

### July 2007

#### Asia-Pacific Retail Handbook - Asia Pacific

Covering a broad range of economic indicators and retail statistics, the 3rd edition of the Asia Pacific Retail Handbook extends our coverage to 13 key retail countries, and some of the most dynamic and diverse retail markets in the world.

### June 2007

#### Retailing in Emerging Markets - Europe

The ten markets covered in this report represent a sizeable investment opportunity. These markets are now well into an explosive growth phase, as illustrated by the chart below, which shows that their combined GDP has almost doubled over the past five years. We have also included Poland, Hungary and the ...

#### European Retail Forecasts to 2012 - Europe

Much depends on consumers' willingness to go out and spend. There are a number of countries where growth has been driven by their willingness to borrow – Spain, the UK and Russia spring to mind. There is an element here of storing up problems for the future. But in the ...
