Solar Panels - UK

“The latest government cuts have already proved hugely damaging to the UK solar PV sector, which has seen deployment levels plummet during the first half of 2016. The Solar Trade Association estimates that a third of all solar jobs have been lost since July 2015, with a large number of ...

Public Expenditure - UK

“The referendum decision to exit the EU will change the emphasis of the government, not least because the new chancellor and the prime minister have been somewhat critical of previous budget cuts and austerity. These policies are due to be scaled back in the autumn budget. There is unlikely to ...

Energy Industry - UK

“Widespread smart meter deployment should create significant opportunities for energy suppliers, allowing them to offer more innovative and tailored tariffs and products. For example, the technology makes it possible for suppliers to offer ‘time-of-use tariffs’, charging a lower price for power at off-peak times, such as the weekend, and higher ...
