

October 2022**Cloud Computing - UK**

“Cloud computing remains in its developing stages of adoption, but has proved a highly attractive architecture during the disruption of the pandemic and is ideally placed to address the current economic disruptions mainly caused by the fuel-based inflation resulting from the Ukraine conflict. As the technology evolves, it is moving ...

September 2022**B2B Economic Outlook - UK**

“As the service sector recovers and stabilises from the impact of COVID-19, firms are now facing a new and sustained challenge from rapidly rising prices. This will stifle growth across the economy as inflation hits supply chains from producers through to end-consumers”

August 2022**Blockchain - UK**

“Blockchain may have its roots in cryptocurrencies, but it is evolving into a technology with widespread applications led by the banking sector but extending to an almost ubiquitous potential. Despite being a decade old, the technology remains at an early development stage of what is seen to be major exponential ...
