

**January 2021****B2B Economic Outlook: Inc  
Impact of COVID-19 - UK**

“The economic impact of COVID-19 has been severe and widespread, though the effect on the separate sectors of the economy has been highly varied. With the vaccination roll-out having commenced in December 2020 the prospects for economic recovery gathering pace during 2021 have improved, though the first half of the ...

**October 2020****B2B Economic Outlook: Inc  
Impact of COVID-19 - UK**

“COVID-19 has had differing effects on the UK economy, but it has hit the service sector hardest. Customer-facing services in sectors such as retail, hospitality and leisure have been most impacted both because of Government restrictions and continued consumer wariness. The pandemic has also affected the market for commercial office ...

**September 2020****Adult Social Care: Inc Impact of  
COVID-19 - UK**

“Despite the recent tragedies associated with the pandemic, market drivers remain strong as the imbalance between supply and demand for social care services will only steepen in the forthcoming years. The pandemic will result in some long-term changes in how care is delivered and has highlighted the need for new ...

**August 2020****Dentistry: Inc Impact of COVID-19  
- UK**

“The industry has been hit hard by the pandemic and with disruption expected to continue over the next year to 18 months, innovative developments will be required for the profession to remain financially viable. An

important consideration for dentists going forward will be pricing. With the rising cost of PPE ...

### **Private Healthcare: Inc Impact of COVID-19 - UK**

“Based on the assumption that the number of coronavirus cases and hospital admissions in the UK continues to fall, 2021 will see a rebound in the private acute healthcare market as the backlog of treatments and surgeries not carried out in light of the pandemic will be rescheduled and spill ...

## June 2020

### **B2B Economic Outlook: Inc Impact of COVID-19 - UK**

“The COVID-19 lockdown will see household expenditure on energy increase in 2020. While consumption is up, wholesale energy prices have collapsed amid the pandemic. This is pushing down the cost of new deals which means households are able to make greater savings by switching to a cheaper tariff. This would ...

### **Occupational Health: Inc Impact of COVID-19 - UK**

“As the economy slows in the midst of the closure of industry operations due to the COVID-19 pandemic, occupational health initiatives that boost long-term productivity will start to become more common over the medium-term. Major opportunities are still available, with the focus likely to be increasingly placed on ensuring workplaces ...

## March 2020

### **B2B Economic Outlook - UK**

“Although the UK leaving the EU has created uncertain times, albeit one with opportunities, a longer running issue has been that of productivity levels. Relatively low levels of investment and R&D spending have driven this stagnation and future economic policies must focus around these and ‘upskilling’ the UK workforce.” ...
