

**June 2019****Free-from Foods - US**

"The free-from foods market is growing, and with 62% of consumers avoiding at least one ingredient, it is unlikely to slow in the near future. However, the market faces a number of challenges, such as differing priorities for avoiding ingredients, skepticism over the trustworthiness of the claims, and perceptions that ...

**Oral Health - US**

"For many consumers, oral care is perceived as a daily health essential, offering a consistent usage occasion for key players to penetrate. More than half of consumers report using four to six oral care products during their routine, supporting the need for supplemental products to achieve and maintain oral hygiene ...

**May 2019****Prepared Meals - US**

"After a slight sales decline, the prepared meal category has enjoyed several consecutive years of positive growth, a trend expected to continue. Single-serve and side dishes have fared particularly well, with notable successes in vegetable-based side dishes catering to the consumer interest in increasing their vegetable intake, as well as ...

**Plant-based Proteins - US**

"The plant-based proteins market is growing with no signs of slowing. The challenge moving forward will be for brands to find ways to please consumers with vastly different dietary and taste preferences. The majority of consumers report no specific dietary restrictions and are most focused on taste over specific ingredients ...

**April 2019****Cough, Cold, Flu, and Allergy Remedies - US**

"The majority of adults have experienced some kind of cold, cough, flu, allergy, or related symptom in the past 12 months. Over-the-counter remedies are the most common method for treating these ailments. Yet, after achieving growth from 2013-17, category sales softened in 2018. Mintel's forecast calls for a gain between ...
