

**July 2020****Software: Inc Impact of COVID-19**  
- UK

“COVID-19 has hugely encouraged remote working and while for some workers this will be temporary, it is likely to have a profound effect on working practices in the longer term. This is creating major areas of software sales growth to support remote workers, and accelerating a previously established trend towards ...

**June 2020****B2B Economic Outlook: Inc Impact of COVID-19 - UK**

“The COVID-19 lockdown will see household expenditure on energy increase in 2020. While consumption is up, wholesale energy prices have collapsed amid the pandemic. This is pushing down the cost of new deals which means households are able to make greater savings by switching to a cheaper tariff. This would ...

**Data Centres: Inc Impact of COVID-19 - UK**

“COVID-19 has had major short-term, and will have significant medium- and long-term, impacts on society and the way everyone works. However, the impact on the creation and analysis of data is more one of location rather than volume and so demand for data centres is only positively affected. The scalable ...
