

December 2006

Internet Quarterly - UK

nb Listed price is for four issues over 12 months

November 2006

In-home Interactive Media - UK

The in-home interactive media market is one that changes by the month, with new entrants, new strategies and new technologies emerging at such a rate that mainstream consumers can struggle to keep up.

October 2006

Internet Quarterly - UK

nb Listed price is for four issues over 12 months

UK Retail Briefing - UK

UK Retail Briefing is a monthly news digest service, which brings together news on companies and their business environments. The coverage is split by sector and supplemented by soundbite-style commentary and opinion. Recent sales figures are given with month-by-month trends for each sector, plus an inflation monitor highlighting key developments ...

September 2006

Video and Computer Games - UK

The video game market is characterised by periods of exceptional growth coupled with phases of consolidation, all brought about by product lifecycles and intermittent hardware launches. First generation machines give way to 2G and 3G, PCs have ever-increasing specs and so on, while handhelds become more innovative and lighter. Consistent ...

July 2006

Internet Quarterly - UK

nb Listed price is for four issues over 12 months

June 2006

PC Peripherals - UK

This report examines the UK market for PC peripherals. This market was last profiled by Mintel in June 2004.

May 2006

Digital Cameras and Peripherals - UK

This report examines the UK consumer market for digital cameras and peripherals. It builds on Mintel's previous report that focused solely on digital cameras, *Digital Cameras, Market Intelligence, 2004*. The period since the beginning of this decade has seen the rapid development of digital technology with the camera sector being ...

Telecommunications Retailing - UK

Telecommunications retailing has developed very rapidly in the last five years, largely because the market for mobile phones has expanded at a breathtaking pace. Over the same period the market for fixed line equipment has been less buoyant, although the emergence of digital cordless phones with good styling and extra ...

April 2006

Audio-visual Review - UK

This report assesses the latest developments in the fast-moving audio-visual goods market, which Mintel previously reported on in August 2001. The focus of this report is on products whose primary function is the recording and playback of audio and/or visual material. There has, however, been a strong trend in ...
