

### January 2022

#### B2B Economic Outlook - UK

“2021 has demonstrated a rapid recovery from the record fall in GDP in 2020 – in sharp contrast to the elongated flat recovery following the last recession. However, the huge uncertainties surrounding the outbreak of Omicron now dominate expectations for the economy. While the government clearly remains resistant to another ...

### December 2021

#### Utility Capital Expenditure - UK

“Infrastructure investment will continue to be a key focus across the utility sectors, driven by the need to replace old assets, boost resilience, deliver an environmentally sustainable network and supporting the transition to Net Zero. In response to COVID-19, the government and regulators have also encouraged companies to accelerate investment ...

### October 2021

#### Renewable Energy - UK

“While the UK has made good progress on decarbonising the UK electricity supply sector, significant investment in the whole system infrastructure will be required over the coming decade in order to progress towards net zero while ensuring security of supply.

This will entail increasing the role of renewables (predominately wind ...

### September 2021

#### Solar Panels - UK

“The outlook for the UK solar panels market is bright, fuelled by the decarbonisation agenda across the public, commercial and residential sectors. Market growth is anticipated to be initially driven by subsidy-free, large-scale, solar deployment and commercial installations. With solar PV set to be included in the next CfD allocation ...

**August 2021****Energy Industry - UK**

“With green tariffs becoming more ubiquitous, energy suppliers must do more to differentiate their green credentials. Suppliers should consider offering services and products to help consumers live more sustainably in their homes. This can unlock new opportunities for growth and create competitive advantage.

Suppliers can more actively engage with customers ...

**June 2021****B2B Economic Outlook - UK**

“Latest economic data indicates a rebound in the UK economy, bolstered by the easing of COVID-19 restrictions and the rapid vaccine roll-out. Businesses are also becoming more confident with a number of surveys suggesting improved expectations for economic conditions and investment intentions.

**April 2021****Waste Management and Recycling  
- UK**

“The COVID-19 outbreak has delayed progress of the government’s waste and recycling reforms, which are seen as a much needed framework to reboot recycling and support the shift towards a more circular economy. While there remains a lack of clarity over the final design of proposed measures it’s important that ...

**March 2021****B2B Economic Outlook - UK**

“The tentative dates set by the government to reopen the economy over the coming months provide hope that businesses are over the worst that the pandemic has brought them financially. However, it will still take time for things to return to pre-pandemic levels with businesses likely to still need support ...
