Car Aftermarket - Small Parts - UK

The market for replacement car parts has been affected by a number of restraints, with value sales increasing only modestly. This is partly a reflection of a fall in volume sales for many car parts which itself is a reflection of the increasing warranty and service periods being offered on ...

November 2006

Vehicle Recovery Services - UK

Whilst a wider product offering, notably financial products and insurance services, remains a key focus for the major operators in the vehicle breakdown industry, it is clear that their core product has suffered. Since 2004, growth in membership and value of the overall market has slowed and strategies to boost ...

Cars - UK

Since 2004, the market has seen a downturn in confidence for the new car market.
